Dear Mr. Slovenski,

The Media Rating Council (MRC) Board of Directors has voted in favor of continuing accreditation exclusive to metrics reported through PatientPoint digital point of care marketing service's Digital Campaign Report (the Service), a copy of which is attached for reference.

Accreditation indicates that the measurements reported by the Service comply with: (1) MRC's *Minimum Standards for Media Rating Research*; (2) the *Desktop Display Impression Measurement Guidelines*; (3) the *Mobile Application Advertising Measurement Guidelines*; (4) the *Digital Video Ad Impression Measurement Guidelines (the Video Impression Guidelines)*; (5) the *MRC Invalid Traffic Detection and Filtration Standards Addendum (IVT 2.0)*; (6) the procedures described in PatientPoint's answers to the *Media Rating Council Questionnaire*; and (7) the procedures described in procedure manuals and textual materials included in reports of the Service.

We congratulate you on maintaining this important Industry standard of quality, and we look forward to continuing our work with you in the future.

Sincerely,

A handwritten signature in black ink that reads "George W. Ivie".

\*Ad Plays represent the total of all creatives that played during the month and is not meant to represent audience impressions.

\*\*Unique HCPs reported each month are based on the collective locations at which they practice. PatientPoint does not capture which days of the week they may practice at each location and while an HCP may not be at each location every day, patients are still being seen.
